Students should meet with the BLA Program Coordinator regularly to ensure that all program requirements are met.

**In YEAR 2, ONLY ONE** of these classes--ESRM 473, 474, 479 or 480--listed in Autumn, Winter, Spring Quarters, needs to be taken to fulfill the Managing Plants requirement.

Students should check the Directed Electives List for other course(s) to fulfill your Directed Electives requirements shown on the B.A. Degree Requirements Checklist. If you undertake a Minor or Certificate Program, plan when to take courses to fulfill those course requirements along with the BLA Directed Electives requirements.
