

ACTIVATING ARTISTIC SAFE SPACE AT RED SQUARE

We propose the bold intervention of keeping the hardscape of Red Square exactly as it is. Rather than work to reimagine the site itself, we would like to reimagine how the site is utilized and activated. By adding flexible, modular, and multiperformative additions, we envision a short-term program to help lead the long-term reclaiming of this precious open space here on UW's campus.

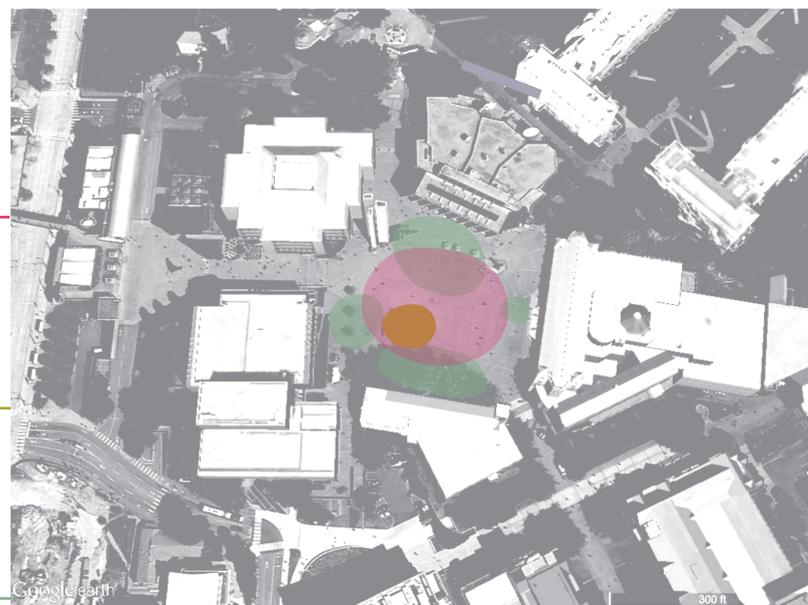

PROJECTING STUDENT ARTWORK AND INTERACTIVE VIDEOS

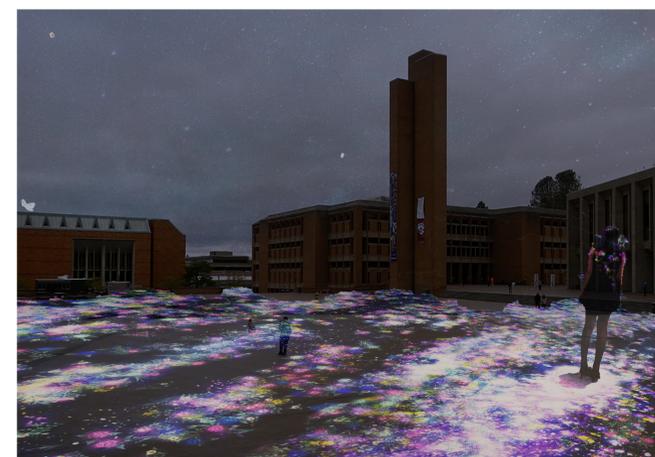

INCORPORATING BLUE-TOOTH SURROUND SOUND

FLEXIBLE AND MODULAR SEATING ARRANGEMENTS

colorful lighting
art installations
seating
reclaiming safety
wayfinding

Context Map of Red Square
not to scale.

Precedent
Team Lab's innovative technology would transform this space into an activated safe haven to explore and create interactive program
