

ANKENY WEST FOOD CART POD

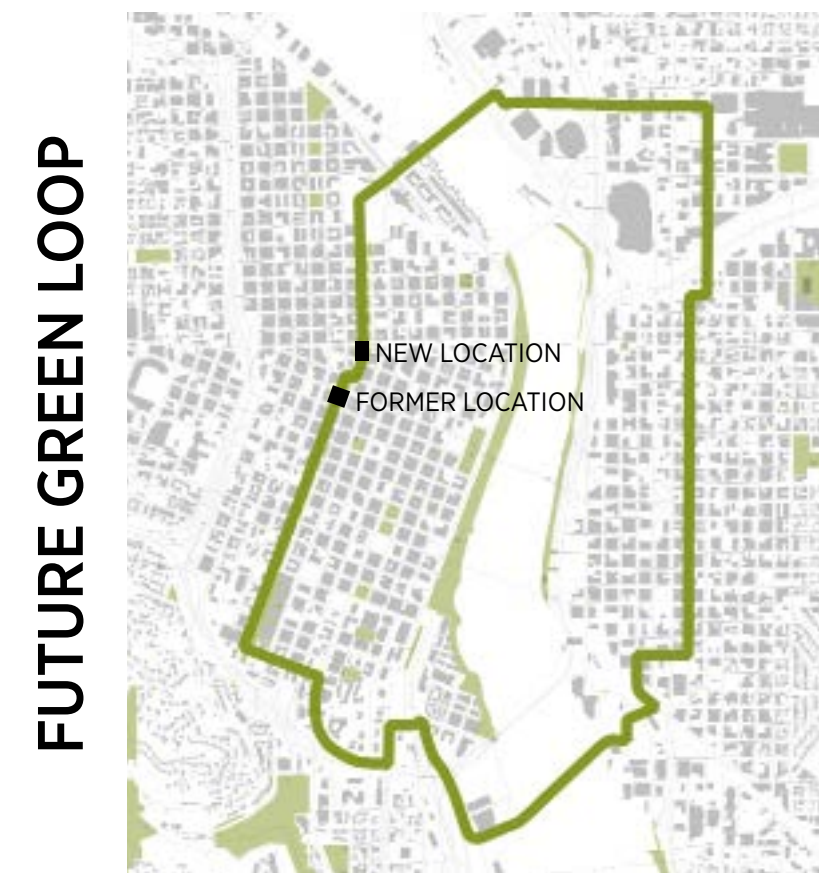

PORTLAND, OR | 2024

PLACE, Friends of the Green Loop, Portland Bureau of Transportation (PBOT), Prosper Portland

Portland's first food cart pod in the public right-of-way serves as the pilot for "The Culinary Corridor." An innovative initiative reimagines a street, supports small businesses, and enlivens the downtown experience. Strategic interventions - utility hookups, street murals, and planters safely redirect traffic - establish a framework for testing best practices in cart layout, operations, and public space management. Future phases will reclaim the street for people - reducing vehicular presence, amplifying the cultural energy, and laying the foundation for a new model of street life across the city and beyond - shaped by footsteps, delicatessens, conversations, and joy.
