

LARCH 300

INTRODUCTION TO LANDSCAPE ARCHITECTURE STUDIO

summer 2026 a + b term
monday • wednesday • friday
1:10 pm to 5:10 pm
6 credits

LARCH 300 is an overview of the field of landscape architecture and related professions within the built environment. Students will be introduced to the design process, skills, and tools via site-based projects that emphasize the integration of built space, culture, community, and ecology. Students will explore various methods of visual representation through hands-on drawing, building, and making. Research, collaboration, and presentation skills will be practiced through various exercises and projects.

all students welcome

fulfills A&H, BLA prerequisite, BA EDS major,
and UED minor requirements
